

216 Optical Cable Harness Color

Overview

Buffer Tube Color Natural Fiber Count 216 Buffer Tube Diameter 11 mm (0.43 in)
Number of Ripcords 2 Fiber Coloring Blue, Orange, Green, Brown, Slate, White, Red, Black, Yellow, Violet, Rose, Aqua Outer Jacket Color Yellow Ribbon Cable, Plenum 216 . Corning ribbon plenum cables are designed for use in plenum, riser and general purpose environments for intrabuilding backbone installations and for high-fiber-count data centers. These cables consist of 12 to 216 fibers organized into 12-fiber ribbons inside a central tube. Dielectric strength. Ribbon Cable, Plenum 216 F, Single-mode (OS2) Features and Benefits Precise fiber and ribbon geometries Excellent mass splicing yields Ribbon ID numbers and fiber colors Easily identifiable Flame-retardant jacket Rugged and durable Available with interlocking armor Additional mechanical durability. Although Belden makes every reasonable effort to ensure their accuracy at the time of this publication, information and specifications described here in are subject to error or omission and to change without notice, and the listing of such information and specifications does not ensure product. WolonFiber's 12-Color Fiber Optic Pigtail Packs are manufactured strictly to the TIA-598-C standard with vibrant, easy-to-identify colors. Perfect for fast, error-free termination in your ODF or splice closures. Available in OS2/OM3/OM4 at factory-direct wholesale pricing.

Article Content

Ribbon Cable, Plenum 216 F, Single-mode (OS2)

The colored jacket allows for easy visual identification of the cables. The standard jacket color will be determined by the dominant fiber type in the cable and will use the standard part numbers shown here.

Ribbon Cable, Plenum 216 F, Single-mode (OS2)

This cable is available in 12 different jacket colors €“ blue, orange, green, brown, slate, white, red, black, yellow, violet, rose and aqua. The colored jacket allows for easy visual identification

FSSH216NG Technical Data Sheet

Product Description Heavy Duty Loose Tube Fiber Cable, Outdoor, OS2, Singlemode, 12 Fibers per tube Gel, Black Jacket

Fiber Optic Color Code: The Ultimate TIA-598-C Guide

Since the earliest days of fiber optics, multimode cables have typically been color-coded orange, black, or gray, while single-mode cables are marked in yellow.
