## Overview

With a rated voltage of 380V and a current range of 630A to 10A, this robust cabinet complies with the GB/T 7251. 2-2023 standard, guaranteeing safety and efficiency. Robust, Versatile, and Safe Power Control for Demanding Industrial and Commercial Environments The Fulleto XL-21 series is an indoor, floor-standing power distribution cabinet engineered for excellence. It serves as the central hub for receiving and distributing electrical energy in low-voltage. The 380V three phase system represents one of the most common industrial power distribution standards worldwide, particularly in Europe, Asia-Pacific, and many emerging markets. Three phase distribution boxes serve as the central point for electrical power distribution in industrial facilities. The Merlin Gerin Three-phase Electric Meter Complete Set of Boxes is an essential electrical solution for residential, commercial, and industrial applications. Installation Methods: Wall-mounted and floor-standing installation options are available. Old Factory Renovation: Energy efficiency optimization designed with minimum downtime to balance safety and economy.
