

Distribution Box Party A

Overview

A distribution box is a low-voltage electrical enclosure that receives incoming power and distributes it safely to multiple outgoing circuits through protective and switching devices such as MCBs, RCDs, RCBOs, fuses, isolators, busbars, neutral bars, earth bars, and surge. A distribution box is a low-voltage electrical enclosure that receives incoming power and distributes it safely to multiple outgoing circuits through protective and switching devices such as MCBs, RCDs, RCBOs, fuses, isolators, busbars, neutral bars, earth bars, and surge. The rental price indicated the base rate for the first day of use. any costs for assembly and disassembly, cleaning charges. The VAT rate applicable at the time of performance always applies. Do you have any questions about our products?

We will be happy to help you personally! Our flexible distribution boxes enable reliable, decentralized signal transmission and power transmission up to protection class IP67 – wherever passive distribution boxes are required. The purchase of Global Recycled Standard (GRS) certified. One way 125A total power switch, 12pcs 20A one phase switch, overload and short –circuited protection switch. Specifications: Power supply: three phase and five line system Three phase AC208V $\pm 10\%$, frequency 60Hz $\pm 5\%$ / AC380V $\pm 10\%$, frequency 50Hz $\pm 5\%$ Input: 400A camlock plug, three phase. Lex Products offers a full range of portable power distribution boxes and units, specifically engineered for indoor and outdoor use for the entertainment, industrial and military industries.
