# Fiber Optic Fusion Splice Boxes Price List

## Overview

Amazon.com: Fiber Splice EnclosurePrice and other details may vary based on product size and color. Fiber Optic Wall Mount Box with LC Couplers for Single.

## Key Takeaways

Fiber optic fusion splice boxes typically range from $20 to over $200, depending on capacity, type, and features.

### Price Range and Factors

Small residential or low-capacity boxes (e.g., 4–12 fiber splices, wall-mounted) are generally priced around $20–$50 on platforms like Amazon and eBay. These are suitable for home or small business installations. Medium-capacity boxes (e.g., 24–48 splices, indoor/outdoor rated, with fusion splice trays) usually cost $50–$120.

These are common for FTTH (fiber-to-the-home) networks and small distribution points. High-capacity or specialized enclosures (e.g., 96–144 splices, dome closures, gel-sealed, weatherproof for outdoor use) can range from $150 up to $300 or more, depending on brand and features like mass fusion capability, re-entry design, or multiple cable attachments.

### Additional Considerations

Capacity: Choose a box that matches your network size; larger capacities increase cost. Indoor vs. Outdoor: Outdoor-rated boxes are weatherproof and more expensive due to materials and sealing technology.

Fiber Type Compatibility: Ensure the box supports single-mode or multi-mode fibers as required. Accessories: Some boxes include fusion splice trays, adapters, or protective tubes, which can affect the price. In summary, a basic 4–12 fiber splice box can be purchased for under $50, while professional-grade, high-capacity enclosures for commercial or outdoor use can exceed $200.

Always check the product specifications to ensure it meets your network requirements.
