

Fixed power supply for distribution box

Overview

A fixed power distribution box designed for your loads, clearly labeled, code-compliant, and easy to service. A fixed power distribution box —also called a distribution board, switchboard, or remote power panel (RPP)—safely routes utility or UPS power to branch circuit loads. A distribution box is a low-voltage electrical enclosure that receives incoming power and distributes it safely to multiple outgoing circuits through protective and switching devices such as MCBs, RCDs, RCBOs, fuses, isolators, busbars, neutral bars, earth bars, and surge protective devices. Today, electrical systems are essential for homes and industries. Wieland is your experienced and reliable partner for efficient, pluggable and decentralized electrical installation.
