

How much does a Swiss power cable tray cost

Overview

Ducts, Cable Trays & Trunking | Distrelec Switzerland Distrelec Switzerland stocks a wide range of Ducts, Cable Trays & Trunking. Next Day Delivery Available.

Key Takeaways

Cable tray prices in Switzerland vary widely depending on material, size, certification, and supplier, typically ranging from CHF 50 to CHF 300 per meter for standard industrial trays.

Price Overview

In Switzerland, cable tray pricing is influenced by material type, load capacity, and compliance with safety standards. Common materials include: Galvanized steel: Durable and cost-effective, suitable for most industrial and commercial applications. Prices generally start around CHF 50-100 per meter for standard sizes.

Stainless steel (AISI 304L or 316L): Offers higher corrosion resistance, often used in chemical or coastal environments. Prices can range from CHF 150-300 per meter depending on thickness and certification. Aluminum: Lightweight and corrosion-resistant, typically priced between CHF 100-200 per meter.

Cable trays are available in various dimensions, such as 30x22x2500 mm up to 620x110x2500 mm, and the cost increases with width, height, and load-bearing capacity.

Factors Affecting Cost

Material and Coating: Hot-dip galvanization, stainless steel grades, and aluminum alloys significantly impact price. **Certifications:** Compliance with IEC 61537, UL certification, and E-90 fire ratings can increase costs but ensure safety and regulatory compliance. **Accessories and Installation:** Brackets, connectors, and mounting hardware add to the total installed cost.

Labor for assembly and mounting is a significant component in Switzerland due to high labor standards. **Supplier Type:** Prices vary between specialized domestic fabricators, pan-European suppliers, and global distributors. Swiss buyers often prioritize quality, durability, and total cost of ownership over the lowest price.

Suppliers and Availability

Distrelec Switzerland offers a wide range of cable trays with next-day delivery and expert advice. Indupart stocks X-Tray systems in steel and stainless steel with various accessories for flexible installation.

WL

W Switzerland lists 23 distributors for B2B procurement, allowing direct contact with suppliers for quotes. Ahlsell provides hot-dip galvanized ladders and trays suitable for industrial and commercial projects, including specialized mounting options.

Summary

Swiss cable tray prices are not fixed and depend on material, certification, size, and installation requirements. For budgeting purposes: Standard galvanized steel trays: CHF 50–100 per meter Aluminum trays: CHF 100–200 per meter Stainless steel trays: CHF 150–300 per meter For precise pricing, it is recommended to contact local distributors or suppliers directly, as bulk orders, project specifications, and certifications can significantly influence the final cost.
