Middle East FRP Cable Tray Custom Manufacturer

Overview

FRP/GRP cable trays by Middle East Fiberglass Industries L.L.C. – corrosion-resistant, lightweight, fire-retardant, and durable solutions for industrial, commercial, and marine cable management.

Key Takeaways

Leading FRP cable tray manufacturers in the Middle East include Middle East Fiberglass Industries, Bonn Gulf, Eleven Planets Industries (Novus Fiber), Ferrotech, and Emerald Steel Industries, offering corrosion-resistant, lightweight, and fire-retardant solutions. Key Manufacturers and Offerings1. Middle East Fiberglass Industries L.

L. C. Based in the Middle East, they provide FRP/GRP cable trays designed for industrial, commercial, and marine environments.

Their trays are corrosion-resistant, fire-retardant, lightweight, and durable, suitable for power plants, oil & gas facilities, chemical plants, and offshore installations. 2. Bonn Gulf (UAE) Bonn Gulf manufactures GRP and FRP cable ladders and trays for harsh conditions, including marine and petrochemical environments.

Their products are lightweight, non-conductive, corrosion-resistant, and available in customized sizes with connectors, bends, covers, and brackets. 3. Eleven Planets Industries (Novus Fiber, Sharjah, UAE) They specialize in pultruded GRP/FRP cable trays and ladders, engineered for corrosive and challenging conditions.

Applications include power plants, oil & gas platforms, and seawater processing plants, emphasizing high strength-to-weight ratio and electrical insulation. 4. Ferrotech (Dubai, UAE & Kuwait) Ferrotech offers FRP cable tray systems made from glass-armored thermoset fire-retardant resins.

Their products include perforated and ladder-type trays, with accessories like bends, tees, couplers, clamps, and covers. They are UV-resistant, anti-corrosive, and electrically insulated, ideal for locations where metallic trays corrode easily. 5.

Emerald Steel Industries LL

C (UAE) Emerald Steel supplies FRP channel and ladder-type cable trays across the Middle East, including Oman, Saudi Arabia, Kuwait, Bahrain, Qatar, Iraq, and Jordan. Their trays are lightweight, corrosion-resistant, and manufactured via automated pultrusion, suitable for offshore platforms, chemical plants, oil refineries, and water treatment facilities.

Applications and Advantages

Industrial & Commercial Buildings: Efficient cable management with minimal maintenance. Oil & Gas and Petrochemical Facilities: Resistant to chemical and saltwater corrosion. Marine & Offshore Installations: Non-conductive and fire-retardant for safety.

Power Plants & Substations: High strength-to-weight ratio supports heavy-duty cables.

Advantages of FR

P Cable Trays: Corrosion and chemical resistanceLightweight and high strengthFire retardant and non-conductiveLow maintenance and long service lifeCustomizable sizes and accessories for complex installations These manufacturers provide regional coverage, compliance with international standards, and tailored solutions for demanding environments, making them reliable partners for Middle East projects.
