

Moldova AI joins the server

Overview

Moldovan startups, researchers, and IT companies can now train and test AI models on EU-grade supercomputing infrastructure without paying for expensive cloud resources. ☐☐ Why this is a big deal: - Free access to powerful compute for AI startups and SMEs - No more. Here's Why It Matters☐☐ ☐☐☐☐ In October 2025, Moldova officially joined the #EU AI Factories initiative (a strategic European program focused on advanced AI infrastructure). Through FAIMA (Moldova's AI Factory Antenna), the country is now directly connected to European supercomputers, including. The ruling pro-European Party of Action and Solidarity (PAS) is facing a barrage of online propaganda and disinformation campaigns attributed to Russia, aimed at undermining its support and potentially swaying the election in favor of pro-Russian parties. This marks a new era in information. Moldova's President Maia Sandu leaves after a press briefing after the polls closed for the presidential election runoff, in Chisinau, Moldova, on Nov. Copyright Vadim Ghirda/AP Photo Spoof websites impersonate legitimate Western media and pay “engagement farms” in Africa, while AI bots. Built on a secure, consent-based approach, Agent Pay transactions will remain authenticated, transparent and within full consumer control Mastercard today announced the completion of a pilot that delivered the first agentic transactions in Moldova, marking a new step towards trusted agentic. Chisinau, Moldova finds itself at a critical juncture, grappling with a deluge of disinformation as the country prepares for parliamentary elections on Sunday. These efforts, involving AI bots, fake websites, and engagement farms, aim to undermine the pro-European government and destabilize the country.
