Namibia Fiber Optic Cable Laying

Overview

Telecom Namibia plans to connect more than 3,000 homes through its 2025 fibre expansion programme, with major projects underway in Windhoek and scheduled rollouts in Ongwediva and Narraville. Oryx Fibre Infrastructure is an open access fibre optic network provider in Namibia that owns and operates long distance (backhaul and long haul) fibre infrastructure. We own our secure transmission and backbone fibre infrastructure and provide connectivity services to telecommunications operators. These cables are part of a significant infrastructure project aimed at enhancing the country's internet connectivity through fiber optic technology. This initiative is spearheaded by several Namibian Internet Service Providers (ISPs) including Paratus, Telecom Namibia, MTC, and RocketNet, among. If you've recently noticed an increase in cable-laying activities around your neighborhood in Namibia, you're not alone. Within the team, a combined 31 years' experience in Construction, Civils, and Fibre Optics.
