Overview

Waterproof Junction Box, IP65 Electrical Project Box, Distribution Box. Waterproof Junction Box, IP65 Electrical Project Box, Distribution Box, Dustproof.

Key Takeaways

Dustproof combined distribution boxes typically range from €15 to €60 depending on size, material, and features.

Pricing Overview

On Amazon Germany, a dustproof, IP65-rated ABS distribution box (20 x 12 x 7.5 cm) is available, with prices generally starting around €20–€25 including VAT, depending on the seller and shipping options. eBay UK offers a variety of electric distribution boxes, with prices ranging from £15 to £50, depending on brand, size, and additional features like waterproofing or DIN rail compatibility.

CPC U

K lists IP65 distribution boxes with ABS or polycarbonate enclosures, suitable for RCBOs and DIN rail mounting, with prices typically between £25 and £60, reflecting higher-quality materials and industrial-grade specifications.

Factors Affecting Price

Material: ABS or polycarbonate enclosures are more durable and weather-resistant, increasing cost. Size and Capacity: Larger boxes or those with more internal space for wiring and components are more expensive.

I

P Rating: IP65 or higher ensures dustproof and waterproof protection, which adds to the price. Additional Features: Integrated DIN rails, earth and neutral terminals, and reinforced sealing rings can increase cost.

Practical Considerations

For indoor use, smaller ABS boxes with basic dustproofing may suffice and are more affordable. For outdoor or industrial applications, investing in IP65-rated boxes with polycarbonate lids and reinforced sealing is recommended to ensure long-term durability and protection against environmental factors. Prices may vary based on shipping, VAT, and seller location, so checking multiple suppliers is advisable for the best deal.

In summary, a dustproof combined distribution box suitable for general indoor/outdoor use can be purchased for approximately €20-€60, with higher-end models offering enhanced durability and features for industrial applications.
