

Price of Easy-to-Install Cable Trays in Israel

Overview

Cable tray pricing depends on materials, coatings, size, supplier margins, and order quantity —plus hidden costs like shipping and installation.

Key Takeaways

Easy-to-install cable trays in Israel typically range from \$20 to \$150 per unit, depending on size, material, and type.

Market Overview

The Israeli cable tray market is mature and technically demanding, driven by infrastructure projects, commercial construction, and renewable energy installations. Products include ladder-type, perforated, solid-bottom, and wire mesh trays, with associated fittings and accessories. Prices vary based on material (galvanized steel, stainless steel, fiberglass), load capacity, and compliance with safety standards.

Price Ranges

Small under-desk trays (e.g., 42 cm VIVO metal trays) cost around \$20–\$40 per unit, suitable for home or office cable management. Medium industrial trays (1–2 meters, perforated or ladder-type) typically range from \$50–\$100, depending on material and load capacity. Large heavy-duty trays for commercial or industrial use can reach \$120–\$150 or more, especially for stainless steel or fiberglass options with high durability and fire safety compliance.

Installation and Features Easy-to-install trays are designed for quick mounting, often including pre-drilled holes, brackets, and screws. Perforated designs improve airflow and cooling, while solid-bottom trays protect cables from dust and environmental hazards. Wire mesh trays offer flexibility and visibility, making them suitable for complex routing.

Suppliers in Israel

Notable suppliers include Brilltech Engineers, Jeetmull Jaichandlall, and Cable House, offering a range of cable trays with customization options, technical support, and compliance with local safety standards. Many suppliers provide guidance on system design, installation, and maintenance, ensuring optimal performance and longevity.

Summary

For easy-to-install cable trays in Israel, expect prices from \$20 for small office trays to \$150 for large industrial trays, with variations based on material, size, and technical specifications. Choosing a reputable supplier ensures compliance with safety standards and reliable installation support.
