

Recommended manufacturers of electrical distribution boxes in Thailand

Overview

Top Electrical Distribution Manufacturers in Thailand Discover all relevant Electrical Distribution Manufacturers in Thailand, including Powerline Engineer.

Key Takeaways

Thailand has at least 15 to 23 electrical distribution box manufacturers and suppliers, with several major players dominating exports.

Overview of Manufacturers

According to Volza, there are 15 electrical panel box suppliers in Thailand, exporting to 16 global buyers, with a few companies like MITSUBISHI ELEVATOR ASIA CO LTD, FAURECIA INTERIOR SYSTEMS THAILAND CO LTD, and MITSUBISHI ELECTRIC CONSUMER PRODUCTS T accounting for the majority of exports. These suppliers are active in both industrial and commercial sectors, providing products that meet international standards.

Aero

Leads lists 23 electrical distribution companies in Thailand, including manufacturers, distributors, and integrators such as Fling, Delta, and Ash Asia International. This list includes companies offering turnkey solutions, power management systems, and switchgear for industrial, commercial, and renewable energy applications. Ensun highlights specialized manufacturers like Venine Cable, TTE, Bender, and Eigen Energy, focusing on high, medium, and low voltage distribution systems, busways, and renewable energy integration.

These companies provide both products and system integration services for industrial and commercial projects. Keming Electrical emphasizes custom power distribution boxes for industrial estates, commercial complexes, and renewable energy projects, supplying multinational companies and meeting IEC, CE, and local grid standards. Trademo also lists multiple electrical box manufacturers and suppliers across Thailand, providing trade and shipment intelligence for sourcing.

Market Insights

The market is moderately concentrated, with a few large suppliers dominating exports. Manufacturers serve diverse sectors including automotive, industrial estates, commercial buildings, healthcare, and renewable energy. Many companies provide customized solutions, including main and sub-distribution boards, metering boxes, and busway systems.

Thailand's industrial growth and EV infrastructure expansion are driving demand for reliable distribution boxes.

Conclusion

While the exact number varies depending on the source and whether distributors are included, Thailand has at least 15 dedicated electrical distribution box manufacturers, with broader listings including distributors and integrators bringing the total to around 23 companies. Major players dominate exports, but the market also includes specialized and custom solution providers catering to industrial, commercial, and renewable energy sectors.
