

Universal cable trays for downhill slopes

Overview

Cut, bend, and connect the wire mesh trays to route cable and hose in configurations such as curves, slopes, and tees. They are a lightweight option for organizing bundles of cable and hose while keeping them accessible. Drop outs relieve stress on the cable and hose as it exits. OBO BETTERMANN has offered products and solutions for electrical installation for over 100 years. Our cable trays are produced in fit for purpose materials like stainless steel, galvanized, aluminium and fibreglass (FRP/GRP) composites to suit any project type both offshore and onshore. We also. certification requirements and applications. Whether specifying a major new project, refurbishing existing facilities or doing the engineering, procurement and construction (EPC) for your end user, with T&B Cabletray, ABB offers reliable solutions duly conforming to ASTM A123 & ISO 1461 : m. ABB designs and manufactures cable tray systems, including perforated tray, cable ladder, channel tray and strut (metal framing), directly from production facilities in Canada and Saudi Arabia.
